

KENDI MERCY

PROGRAM & OPERATIONS LEADER DATA, METRICS & STRATEGY EXECUTION

Nairobi, Kenya | +254 790 149 924
mercykendi501@gmail.com | linkedin.com/in/mercykendi

PROFESSIONAL SUMMARY

Program and operations leader with 3+ years managing large-scale, multi-country initiatives across Africa serving 60,000+ participants annually. Experienced in programme health diagnostics, dashboards, recurring reporting, workflow automation and translating data into strategic decisions. Combines operational rigour, cross-functional collaboration and founder-level systems thinking.

PROFESSIONAL EXPERIENCE

Program Manager - Professional Foundations

ALX Africa | Jan 2025-Present

- Lead operations for a multi-country leadership development programme serving 60,000+ participants annually across Africa.
- Designed programme-health monitoring that classified programmes as on-track, at-risk or stalled, enabling earlier intervention and better resource allocation.
- Improved activation from 62% to 71% and graduation from 21% to 43% through modular progression systems and early-engagement tracking.
- Standardized dashboards and weekly/monthly reporting across engagement, satisfaction (90%+ CSAT), retention and completion.
- Automated data tracking and alerts, reducing operational workload from 95% to 52% and freeing 48% of team capacity for strategic work.
- Led alignment across curriculum, product, engineering, data and regional teams, and supported a shift toward modular programme delivery.

Program Operations Lead

ALX Africa | Aug 2023-Dec 2024

- Managed lifecycle coordination across recruitment, onboarding, delivery and reporting for distributed learning programmes.
- Designed structured engagement flows and standardized survey collection and reporting tools to improve visibility and decision support.
- Led recurring performance reviews, identified operational risks and coordinated improvements across functional and regional teams.

SELECTED WORK & CAPABILITIES

SELECTED PROJECT EXPERIENCE

Multi-market Data & Process Design

Founders Factory Africa - Entrepreneur Academy | Proposed approach

- Designed a proposed approach for cleaning, organizing and reporting programme data across Kenya, Nigeria and South Africa.
- Mapped shared definitions, ownership, country workflows and consolidated reporting to reduce duplication and support repeatability. The proposal was not implemented before the organization's circumstances changed.

Founder / Operations Builder

Ruji Pure Waters | Drinking-water cleaning, packaging and refills

- Designed and actively use systems for planning, delivery, documentation, reporting, communication and follow-up.
- Apply practical digital tools, automation and AI/LLM workflows to increase capacity and improve consistency.

EDUCATION & CERTIFICATIONS

BSc Industrial Chemistry

University of Embu | 2019

- Data Analytics Certificate - ALX Africa, 2025
- McKinsey Forward Program - McKinsey & Company, 2023
- Human Capital Management - Corporate Finance Institute, 2023
- Leading High-Performing Teams - Corporate Finance Institute, 2023
